Hi Joanne

Our daughter (Mary-Claire Turner) competed in the Blah Speech competition heat and final and we want to express our thanks to you for organising this event. We are so impressed at the dedication and enthusiasm you put into the competition with the training and feedback provided to the participants. It was a very nurturing experience and you obviously care a great deal about equipping the children and helping to guide them in feeling confident to speak publicly.

Mary-Claire learned a great deal from participating and thoroughly enjoyed the experience and took onboard all of your feedback to "slay the dragon"! We loved attending both the heat and final and watching each and every child excel to the best of their ability with their families watching proudly, was just incredible.

This was the first event/competition either of our kids have entered where there was any degree of support and guidance offered from the organiser. The level of support and encouragement you offered throughout makes it very unique event and of huge value to the children.

Again, thank you for a wonderful, positive learning experience and enjoyable competition. The final with the representatives from Rotary attending, refreshments and even filming the speeches was unlike any an event or competition we have ever experienced.

Congratulations and thank you Joanne. We look forward to accessing footage of Mary-Claire's speech so we can show her how well she did.

Kind regards

Helen and Glen Turner
